**SPY+**

SEE HAPPY.

# SHOW US YOUR TEETHS!

## HAPPINESS IS GUARANTEED

We hear a lot of talk about Happiness these days... self-help books, tapes, seminars and even life coaches all aimed at the idea of "trying to be happy." But, trying to be happy is like trying to beat hunger by thinking about food.

At SPY, we know we can't find happiness by trying. We're big believers in getting outside, doing what we love and immersing ourselves in the uplifting "good" rays the sun has to offer. In fact, we know (not just 'cause science tells us) that getting dosed by the sun's long-wave blue light makes us feel upbeat and alert—HAPPY.

Being happy is indeed the ultimate game plan for us all, and as such, it's what SPY thinks about daily... Being happy. Giving happy. Two cheeks at a time. We even invented the world's first therapeutic lens technology—the SPY Happy Lens™—and it is the natural product extension of our guiding mantra: **SIT ON HAPPY FACES EVERYWHERE.**

With SPY being the ultimate purveyor of HAPPY, we thought we would underscore this fact with our **happy disrespect for the usual way of looking (at life)** and provide something uniquely ours: HAPPINESS GUARANTEED. We are so confident that the Happy Lens™ is the best, most happy producing lens ever, that we back it with a money-back, happiness guaranteed policy... if they aren't the best ever, return them for a full refund.

With the recent consumer study conducted by Tragon Corp. having found "SPY's Happy Lens" as the overwhelming choice for U.S. sunglass wearers,"—rating higher in everything relating to mood, emotions, visual experience and comfort—we are emboldened more than ever to sit on happy faces and spread cheeks.

As the last great American independent eyewear brand, we love pioneering the science and idea that happiness truly comes from how you look at life. After all, "Happiness" is what our nation was founded on—life, liberty, and the pursuit of happiness.

So, feel independent and have the freedom to get cheeky with us in the pursuit of **happiness**. As you now know, our Happy Lens™ is the overwhelming choice for consumers and its **Happiness is Guaranteed.**

# LENS WITH BENEFITS

SPY's Happy Lens™ is the only color and contrast enhancing lens designed to maximize the transmission of the sun's "good" rays—while still blocking out its "bad" rays—so you can enjoy nature's awe-inspiring beauty in ways you've never seen before.

## SEE BETTER.

SUPERIOR COLOR & CONTRAST ENHANCEMENT  
DISTORTION FREE ARC® LENSES

## FEEL BETTER.

"GOOD" RAYS IN, "BAD" RAYS OUT\*  
UPLIFT IN MOOD AND ALERTNESS\*

## PERFORM BETTER.

RELAXES EYES TO REDUCE FATIGUE  
EASILY DISTINGUISH CHANGES IN TERRAIN

\*STUDIES SUGGEST THAT LONG-WAVE BLUE LIGHT—THE "GOOD" RAYS—FOSTERS A POSITIVE "UPLIFT" IN MOOD AND ALERTNESS.

# BLACK SPECIAL (DE)LIVERY

Each year, motors go silent as Ken Block unveils his Livery to waiting eyes. While we'd love to share the most anticipated graphic treatment from the world's most popular rally car driver, our lips are sealed. We did however get the green light from Ken himself to reveal an exclusive sneak peek into his upcoming 2015 Signature Series—a sought after collection that spans seven of SPY's most popular frames.

BEAUTY AND CHARM MAKE UP A GAL. BUT DECEPTION SEPARATES THE FEMME FATALE.

ALSO AVAILABLE IN THE ALLURE, BONNIE, HONEY, FARRAH AND FIONA

# HARD ★★★ MEETS SOFT

## ★★★★ SOFT MATTE IS THE NEW BLACK ★★★★★

FROM A DISTANCE, SPY'S NEW SOFT MATTE FINISH LOOKS NO DIFFERENT THAN ANY OF OUR TOUGHEST, MOST BADASS MATTE BLACK FRAMES. ONCE ON YOUR FACE, THOUGH, THE ULTRA COMFY RUBBERIZED MATERIAL COMBATS SLIPPING AND PROVIDES A STEADY RIDE.

## • STAND OUT AND DISAPPEAR •

SPY + Realtree® collaborations look so good, we just can't stop. Pairing up once again with the leading manufacturer of the world's most versatile camouflage patterns, we splashed Realtree's camo on our most popular sunglasses to let you go undetected, but not unnoticed.

ALEX GRAY WEARS THE REALTREE® GENERAL

SMILES ARE IN. TOXINS ARE OUT.

SPY is Happy to offer support to Non Toxic Revolution (NTR)—a program of The Keep A Breast Foundation—collaborating on limited edition sunglasses and snow goggles. A part of SPY's eco-conscious Recompose Collection, all SPY + NTR sunglasses and goggles are made of 100% biodegradable Plantate™—an all-natural plant polysaccharide material—and a portion of every sale go toward helping its mission of informing, educating and inspiring young people to choose non-toxic products to help reduce instances of breast cancer. More info at [kabntr.org](http://kabntr.org).

100% BIODEGRADABLE FRAME THE GREENEST SUNGLASS EVER

SPY + SURFRIDER HELM

SPY's eco-conscious Recompose Collection has joined forces with Surfrider Foundation's Rise Above Plastics campaign to help eliminate single use plastics. This frame and its hinges are constructed from 100% biodegradable Plantate™—an all-natural plant polysaccharide material—making it one of the greenest sunglasses ever built. \$5 of each sale aids Surfrider Foundation's mission of protecting oceans, waves and beaches.

## COLLISION OF COLOR

Harken back to layered summer dreams in colors that conjure the '60s surf scene. The Kaleidoscope Collection's vivid translucent resin tints, stacked up against contrasting Spectra™ lenses. Slip right in and don't be square to the latest craze for those who dare.

## IT JJF'N FOLDS!

As a professional surfer, John John Florence has life on the road down pat: pack tight and travel light. With this in mind, he asked SPY to build him a special sunglass frame that embodies his mantra. JJF's signature Fold frame is multi-hinged and "folds" up to fit neatly in its pouch or pocket, without fear of getting lost or scratched. Aloha.

*Fold*

JOHN JOHN FLORENCE SIGNATURE FRAME

RAY BARBEE

Born with the intent of reimagining “classiness,” the Crosstown Collection has become SPY’s nod to the past while continuing to lean forward—driven by our pursuit of happiness and the desire to create the unusual. Refining handmade frames with mixed metals and lustrous details, the lure of perfect point breaks and city exploration keeps us fixated on the place where modern and storied meets—creating a collection inspired by the echoes of our heritage that happily lives in the “now.” Roused by our passion for quality design, music, art and getting busy outdoors, Crosstown is part Mickey Mantle and part Mickey Dora—and our salute to it all.

# PERFORMANCE 15

RYAN TREBON

SPY+

# PERFORMANCE TECH

APPLY TO FACE FOR INSTANT PLEASURE

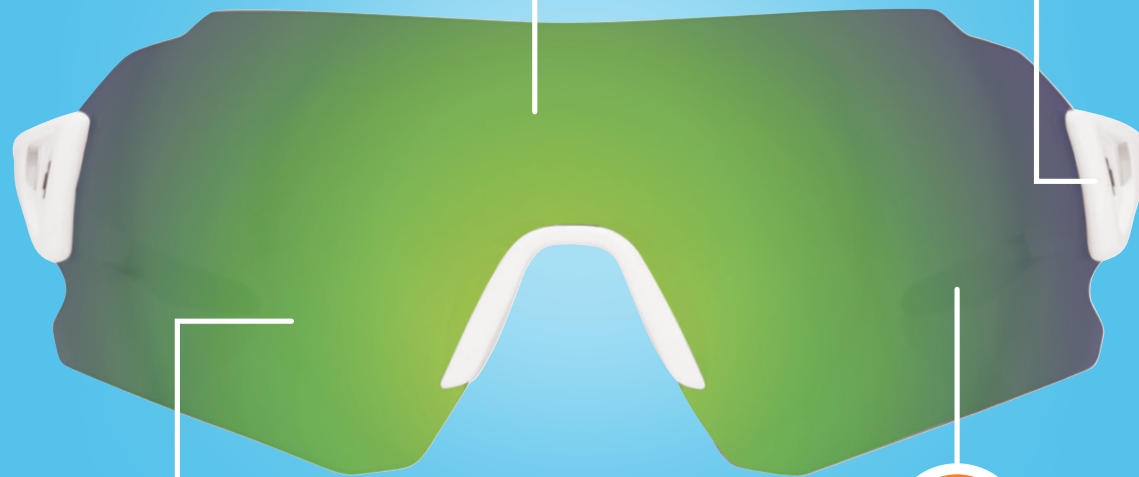

## HAPPY LENS™

Color and contrast enhancing lens allows you to easily see changes in terrain. Also lets in the sun's "good" rays that create an uplift in mood and alertness, while still blocking the "bad" rays.

## SCOOP® VENTILATION

Combats lens fogging by promoting airflow between the lens and the face by forcing air through strategically placed vents of varying aperture on the frame.

## 100% UV PROTECTION

Our entire assortment of lenses offer 100% UVA, UVB and UVC Protection.

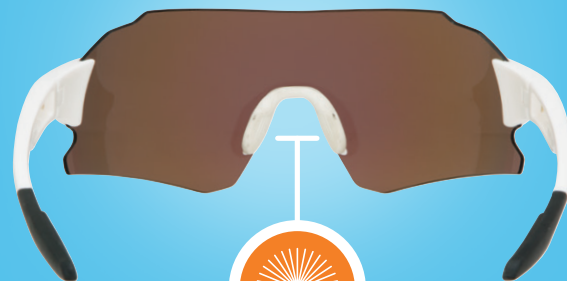

## VICTORY LENS™

Contains a unique coating to repel moisture and oils, and keep sweat and grease from clouding your vision.

## ARC® LENS

Optically correct, distortion-free viewing at all angles, ensuring against discomfort and eyestrain.

## HYTREL™ RUBBER

Specifically engineered rubber nose pads and temple tips become tackier with moisture, keeping your shades sitting securely on your face.

# HAPPY LENS™

## LENS WITH BENEFITS

## STANDARD LENS

## SPY+ HAPPY LENS™

The color and contrast enhancing Happy Lens™ is now available in SPY's Performance Series. The first ever performance Lens with Benefits, the Happy Lens™ makes it easier for athletes to quickly distinguish between wet and dry dirt, ruts, bumps and other unexpected changes in terrain, increasing reaction time and confidence.

## SEE BETTER.

SUPERIOR COLOR & CONTRAST ENHANCEMENT  
DISTORTION FREE ARC® LENSES

## FEEL BETTER.

"GOOD" RAYS IN, "BAD" RAYS OUT\*  
UPLIFT IN MOOD AND ALERTNESS\*

## PERFORM BETTER.

RELAXES EYES TO REDUCE FATIGUE  
EASILY DISTINGUISH CHANGES IN TERRAIN

\*Studies suggest that long-wave blue light –the "good" rays—fosters a positive "uplift" in mood and alertness.

# SCREW

Pure performance without a pill. Fog-free and interchangeable for your pleasure, take your game straight to the front, spit'm out the back, and screw baby, screw. If your victory lasts more than four hours, consult a doctor.

# LENS WITH BENEFITS

The new color and contrast enhancing Happy Lens™ is now available in SPY's premium snow goggles—making bluebird days bluer, bumps and jumps more distinct, and your sightline crisper and clearer than ever.

## SEE BETTER.

SUPERIOR COLOR & CONTRAST ENHANCEMENT  
HIGH CLARITY ARC® SIC™ LENS

## FEEL BETTER.

"GOOD" RAYS IN, "BAD" RAYS OUT\*  
UPLIFT IN MOOD AND ALERTNESS\*

## PERFORM BETTER.

RELAXES EYES TO REDUCE FATIGUE  
EASILY DISTINGUISH CHANGES IN TERRAIN

\*STUDIES SUGGEST THAT LONG-WAVE BLUE LIGHT—THE "GOOD" RAYS—FOSTERS A POSITIVE "UPLIFT" IN MOOD AND ALERTNESS.

# SNOW GOGGLE TECH

APPLY TO FACE FOR INSTANT PLEASURE

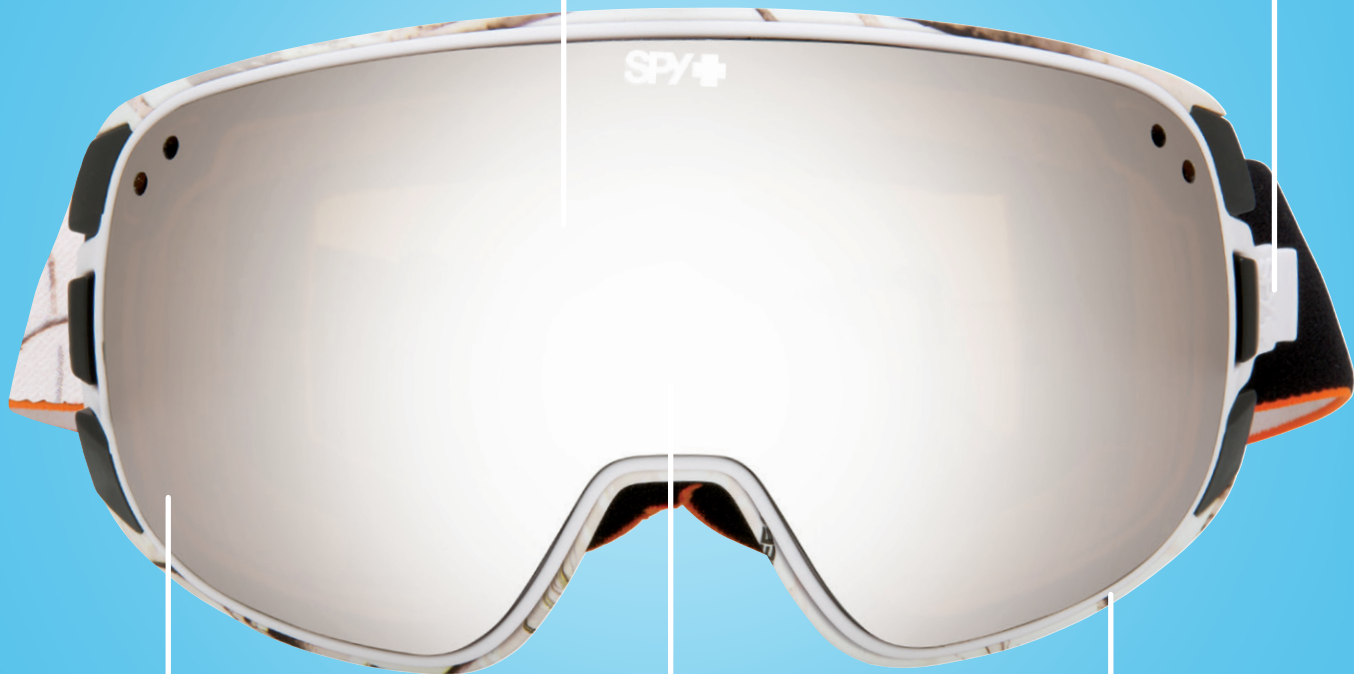

**HAPPY LENS™**

Color and contrast enhancing lens allows you to easily see changes in terrain. Also lets in the sun's "good" rays that create an uplift in mood and alertness, while still blocking the "bad" rays.

**LOCK STEADY™**

The quickest, fingerprint free lens change system on the market—allowing you to adapt to changing light and weather conditions at the touch of a button.

**SPECTRA™ LENS**

These lenses contain multiple layers of mirror that keep bright light toned down. Available in a variety of colors.

**100% UV PROTECTION**

Our entire assortment of lenses offer 100% UVA, UVB and UVC protection.

**FLEX FRAMES**

Our flexible polyurethane frames fit comfortably to the contours of your face no matter how cold it gets.

**HELMET COMPATIBLE**

Our goggle frames fit a wide variety of helmets, minimizing the space between eye and head protection.

**ANTI-FOG LENS**

A super-secret, extra-strength coating on the inside keeps your lenses clear, all day long.

**3X ISOTRON™ FACE FOAM**

Constructed of three different densities of material, it features SPY's moisture-wicking Dri-force™ fleece.

**SILICONE RIBBING**

This thin strip of silicone inside the strap keeps your goggles in place, protecting your eyes from face shots.

**SCOOP®**

Combats lens fogging by promoting airflow between the lens and the face.

**ARC® LENS**

Decentered (thicker in middle and tapering toward edges) to provide optically correct, distortion-free viewing at all angles.

**TSL x SABER**

An artist as skilled with a spray can as he is with a paint brush; Saber picks up the piece where SPY and The Seventh Letter (TSL) left off. Decked out with Saber's trademark characters, the SPY + TSL + SABER Platoon oozes his trademark graffiti style on both the inside and outside of the goggle strap and frame, and flashes his signature tag on the lens.

**FREE STICKER PACK!**

SPY is Happy to offer support to Non Toxic Revolution (NTR)—a program of The Keep A Breast Foundation—collaborating on limited edition sunglasses and snow goggles. A part of SPY's eco-conscious Recompose Collection, all SPY + NTR sunglasses and goggles are made of 100% biodegradable Plantate™—an all-natural plant polysaccharide material—and a portion of every sale go toward helping its mission of informing, educating and inspiring young people to choose non-toxic products to help reduce instances of breast cancer. More info at kabntr.org.

Growing from our deep-rooted love of snowy winters, SPY is proud to continue its partnership with Protect Our Winters. SPY will donate a portion of proceeds from every SPY + POW goggle sold to support Protect Our Winter's mission of engaging and mobilizing the winter sports community to lead the fight against climate change. Go to [protectourwinters.org](https://protectourwinters.org) to learn more.

SPY partnered with Arcade Belt Co. to bring you the most comfortable, durable and original goggle strap to date. Taking inspiration from our adventures, Arcade got busy creating custom strap art for the Bravo, weaving in intricate scenes that reflect our close connection with the mountains and coastline. As an added bonus, each SPY + Arcade Bravo comes with an Arcade belt with corresponding graphics to help you keep your kit in check.

**INCLUDES FREE BELT**

# TWO WAYS TO CHANGE ARE BETTER THAN ONE

## LOCK STEADY™ LENS CHANGE SYSTEM

The quickest, fingerprint free lens change system on the market—allowing you to adapt to changing light and weather conditions at the touch of a button.

## QUICK DRAW™ LENS CHANGE SYSTEM

Utilizing a sliding lever to swiftly release an injected cylindrical SIC™ lens, Quick Draw™ gives you the upper hand to duel with ever-changing weather conditions on the fly.

# PLATOON

The Platoon lets the chaotic world in when you're charging down something that clearly should have been scoped out better from the top. We supply the view, you supply the vision.

#312012180279  
SPY • Saber -  
Happy Rose w/ Dark Blue Spectra™ •  
Happy Bronze w/ Silver Mirror • Free Sticker Pack

## FEATURES

Available with the SPY Happy Lens™, the Platoon is built from flexible polyurethane and features the Scoop® ventilation system, anti-fog 5.5-base ARC® spherical dual-lens with anti-scratch protection, a free premium bonus lens, triple-layer Isotron™ face foam with moisture-wicking Dri-Force™ fleece, silicone-ribbed strap, 100% UV protection, and is helmet compatible with the most popular helmets on the planet.

LIGHTING CONDITIONS EXPLAINED:

**SUNNY**  
Darker lenses and strong mirrors shield your eyes from bright sun on those perfect bluebird days when SPF 30 is a must.

**MIXED**  
Lenses dark enough to shield your eyes from the sun, but offer increased contrast for when the sun decides to hide.

**FLAT**  
No sun, no problem. Specially tuned lenses with increased contrast that aid visibility in your quest for powder on grey days.

**NIGHT**  
Night shredding requires clear lenses that shield your eyes from wind and chill while allowing full vision under the bright lights.

VLT (VISUAL LIGHT TRANSMISSION)

The higher the VLT, the more light that is transmitted through the lens.

FILTER CATEGORY

The higher the value, the less light that is transmitted through the lens.

**MX 15**

JEREMY MCGRATH

**SPY+**

# LENS WITH BENEFITS

SPY's color and contrast enhancing Happy Lens™ is the first ever MX Lens with Benefits. Its patent-pending Happy Lens™ technology makes it easier for riders to quickly distinguish between wet and dry dirt, ruts, bumps and other changes in terrain—increasing reaction time and confidence on the bike.

## SEE BETTER.

SUPERIOR COLOR & CONTRAST ENHANCEMENT  
HIGH CLARITY LEXAN® LENS

## FEEL BETTER.

"GOOD" RAYS IN, "BAD" RAYS OUT\*  
UPLIFT IN MOOD AND ALERTNESS\*

## PERFORM BETTER.

RELAXES EYES TO REDUCE FATIGUE  
EASILY DISTINGUISH CHANGES IN TERRAIN

\*STUDIES SUGGEST THAT LONG-WAVE BLUE LIGHT—THE "GOOD" RAYS—FOSTERS A POSITIVE "UPLIFT" IN MOOD AND ALERTNESS.

# MX GOGGLE TECH

APPLY TO FACE FOR INSTANT PLEASURE

## HAPPY LENS™

Color and contrast enhancing lens allows you to easily see changes in terrain. Also lets in the sun's "good" rays that create an uplift in mood and alertness, while still blocking the "bad" rays.

## LEXAN® LENS

Extra tough Lexan® lenses with posts are tear-off compatible to provide the highest level of clarity in motocross.

## RISE™ VENTILATION SYSTEM

Forces airflow through subframe vents above the goggle (and in-between helmet), creating a vacuum that pulls hot air from behind the lens.

## OUTRIGGERS

Uniformly disperse pressure by seating goggle deeper into your helmet—and perfectly on your face—for all day comfort. Available on OMEN MX only.

## SPECTRA™ LENS

These lenses contain multiple layers of mirror that keep bright light toned down. Available in a variety of colors.

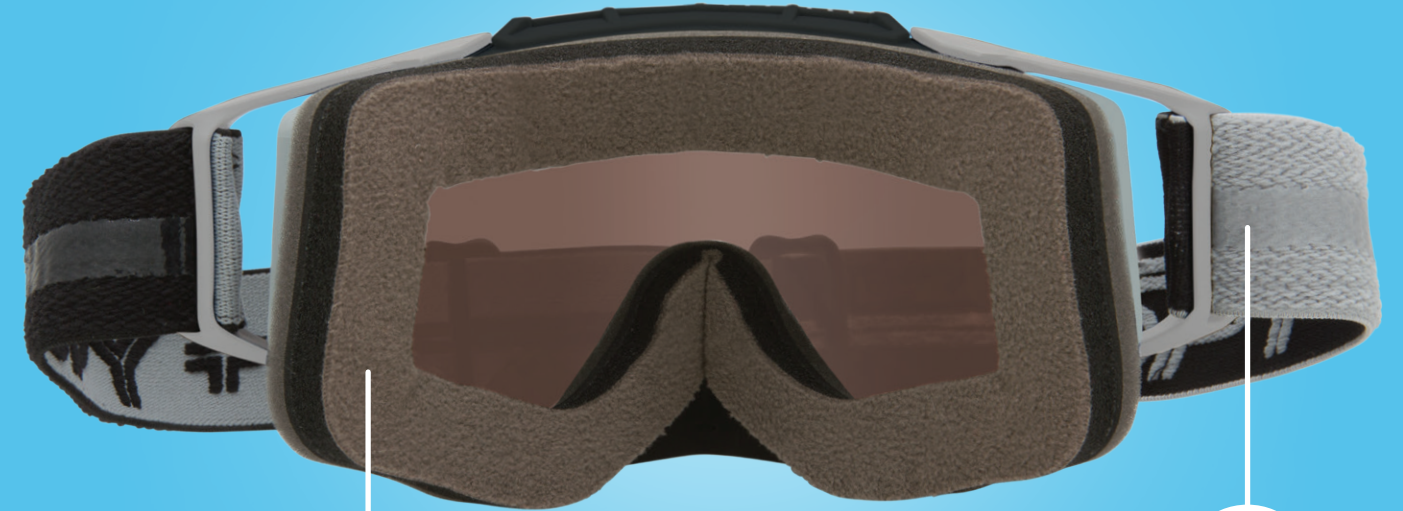

## 100% UV PROTECTION

Our entire assortment of lenses offer 100% UVA, UVB and UVC protection.

## HELMET COMPATIBLE

Our goggle frames fit a wide variety of helmets, minimizing the space between eye and head protection.

## QUAD-LAYER FACE FOAM

An extra dense layer of foam creates the most comfortable high-performance fit SPY has ever put on your face.

## SILICONE RIBBING

A thin strip of silicone inside the strap keeps your goggles where they belong—on your helmet.

## NOSE GUARD

Shatterproof, co-injected nylon that protects your beak from rocks, debris, and other airborne shrapnel. Easily detachable.

# OMEN MX

Developed and tested with Jeremy McGrath, the Omen has everything you need and boasts a great fit with the biggest field of view possible.

## SPY DISPLAYS & MERCHANDISING TOOLS

A sharp looking case is a happy case, and SPY has many tools available to put smiles on the faces of your customers. Contact your SPY sales rep to discuss which displays and tools best suit your needs, and always ask for the most current marketing materials available.

### DISPLAYS

DOUBLEWIDE PLUS

**SPD00007 / Dimensions:**  
H-74" x W-40" x D-20"  
Multi-unit display that includes five modular glass shelves. Features top and front lit LED lighting, steel casters, mirror and lockable storage.

DOUBLEWIDE

**SPD00014 / Dimensions:**  
H-74" x W-40" x D-20"  
Multi-unit display that includes four modular glass shelves. Features front lit LED lighting and lockable storage.

SINGLEWIDE

**SPD00008 / Dimensions:**  
H-72.5" x W-22" x D-20"  
Multi-unit display that includes five modular glass shelves. Features front lit LED lighting and lockable storage.

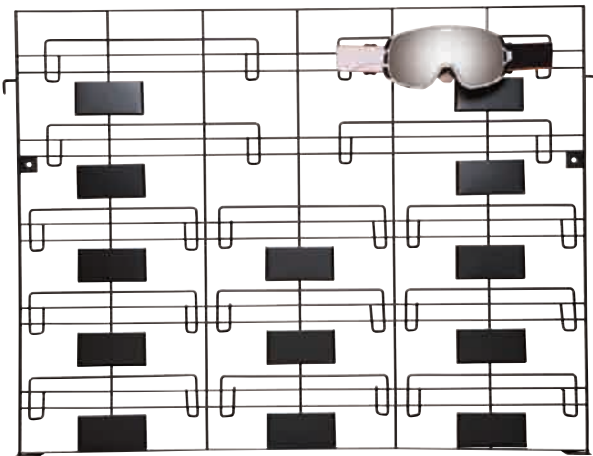

COUNTERTOP

**SPD00003 / Dimensions:**  
H-31" x W-20.5" x D-17"  
Multi-unit display that includes modular glass shelves.

GOGGLE TOWER

**SPD00016 / Dimensions:**  
H-80" x W-20" x D-24"  
Multi-unit goggle display that includes modular shelving and peg hooks for accessories. Features steel casters and interchangeable header card.

UNIVERSAL GOGGLE RACK

**SPD00017 / Dimensions:**  
H-26" x W-34" x D-2.5"  
Modular steel goggle racking system features up to thirteen moto or snow goggles with signage. Available for Doublewide and Doublewide Plus displays only.

### SLAT WALL / SHELF GOGGLE HOLDER

**SPD00015 / Dimensions:**  
H-5.5" x W-11.5" x D-2"  
SPY branded individual moto or snow goggle display unit. Fits both grid wall/slat wall or sits upright on shelving. 4" x 2" viewing window for custom SPY signage.

### MERCHANDISING TOOLS

### SUNGLASS TREES

SPY branded stand-alone sunglass trees integrate into multi-unit displays. Available in two, three or four-high tree stands.

Three-High  
SPA00028

Four-High  
SPA00029

ACRYLIC CARD HOLDER

**P0P00198 / Dimensions:**  
H-.75" x W-1.75" x D-1"  
SPY Branded horizontal acrylic card holder. Holds one SPY visual postcard.

ACRYLIC CUBE W/ MAGNET

**520902000000 / Dimensions:**  
H-3.75" x W-3.75" x D-1"  
SPY branded magnetic card holder.

HORIZONTAL RX CUBE W/ MAGNET

**SPA00026 / Dimensions:**  
H-2" x W-5.5" x D-.75"  
SPY branded magnetic card holder.

# LENSES

## Features And Benefits

**HAPPY LENS™**  
SPY's color and contrast enhancing Happy Lens™ is the only lens that maximizes the sun's "good" rays. See Better. Feel Better. Perform Better.

**LEXAN® LENS**  
Our extra tough Lexan® lenses with posts are tear-off compatible to provide the highest level of clarity in motocross.

**ARC® (Accurate Radius Curvature)**  
Lenses that are injected in a unique tapered shape to provide optically correct, distortion-free viewing at all angles to prevent discomfort and eyestrain.

**TRIDENT™ POLARIZATION**  
Blocks over 99% of glare and is layered and sealed within SPY's injected ARC® lenses to prevent scratching, delaminating and hazing of your polarized filter.

**SIC (Superior Injected Curve)**  
Lenses that are injected to create a curved shape that provides better impact protection and high-quality optics.

**VICTORY LENS™**  
Repels moisture and oils to keep your vision clear on your path to the podium. In your defining moment, don't let sweat and grease cloud your vision to the front.

**ANSI CERTIFICATION**  
Our shades were made to protect your eyes in more ways than one. Select SPY sunglasses are ANSI Z87.1 certified for lens retention and high mass impact resistance.

**CONTACT LENS**  
Contact mirrored lenses are engineered in all your favorite low-light tints with a unique blue mirror color that increases definition, cuts glare, and reduces internal reflection.

**SPECTRA™ LENS**  
Lenses that contain multiple layers of mirror for a look that is equally unique as it is effective by reflecting glare in full sunshine.

**PHOTOCHROMIC LENSES**  
Engineered to adjust to any light condition. Go from light to dark and dark to light without ever losing the ability to See Happy.

**ANTI FOG**  
Our Anti-fog lenses have a super secret extra strength coating that keeps your lenses clear as day, all day long.

# FRAMES

## Features And Benefits

**LOCK STEADY™**  
The quickest, fingerprint free lens change system on the market—allowing you to adapt to changing light and weather conditions at the touch of a button.

**FAST TRACK™**  
The quickest lens replacement system ever gives you the clear advantage when light conditions change. Pop, pull, replace, ride.

**QUICK DRAW™**  
Utilizing a sliding lever to swiftly release an injected cylindrical lens, Quick Draw gives you the upper hand to duel with ever-changing weather conditions on the fly.

**FACE FOAM**  
Geo-force, triple-layer, expanded, Isotron™, and ergonomic face foam are all engineered to keep your goggles sitting comfortably on your face while you ride.

**SCOOP® VENTILATION SYSTEM**  
Combats lens fogging by promoting airflow between the lens and the face by forcing air through strategically placed vents on the frame.

**HELMET COMPATIBLE**  
Every one of our goggle frames is designed to fit a wide variety of helmets to minimize the space between eye and head protection.

**RISE™ VENTILATION SYSTEM**  
Forces airflow through subframe vents above the goggle (and in-between helmet), creating a vacuum that pulls hot air from behind the lens.

**SILICONE RIBBING**  
This thin strip of silicone inside the strap keeps your goggles in place, protecting your eyes from face shots without any loss of sensation or pleasure.

**PLANTATE™**  
An all-natural plant polysaccharide material that is 100% biodegradable.

**FLEX FRAME**  
Our polyurethane flex frame fits comfortably to the contours of your face no matter how cold it gets.

**HYTREL™ RUBBER**  
Outdoor and Performance pieces use this rubber on the nose pads and temple tips. It becomes tackier when introduced to moisture to help keep shades on your face.
